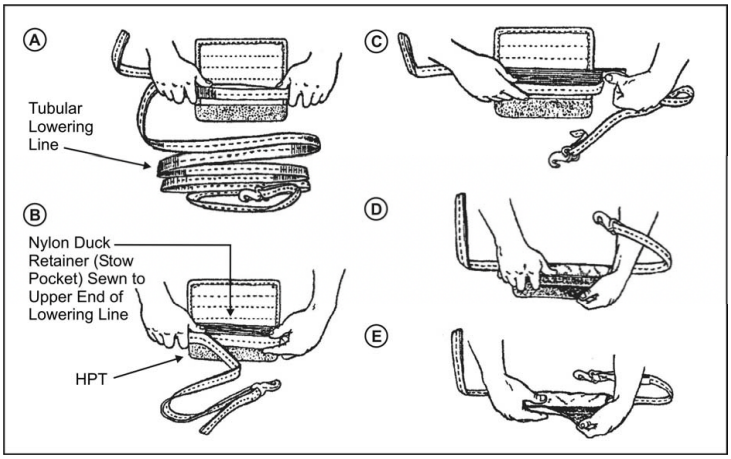
Lowering Line

Part No.: LL15-OD



HPT Lowering Line (8ft)

Hook, Pile Tape(HPT) LOWERING LINE. Military FreeFall operations often require a shorter Lowering Line to minimize the pendulum effect as well as reduce the entanglement issues with the longer Airborne lowering lines. This MilSpec, standard-issue, HPT Lowering Line is 8 ft long with a standard Quick Ejector on one end and a loop for girth hitching to the pack on the other. Excess webbing is stowed in a Nylon retainer.

- Rated for all packs, lowering length of 8ft. Also available in longer lengths.
- Made in USA –Berry Amendment compliant.
