

# SOF Harness System

Part No.: HA30-OD

## Adjustable harness for packs

The SOF Harness System is a patented, adjustable, diagonal-strap pack harness designed for Airborne Operations. The X-shape and adjustable cross-strap secure all manner of odd shapes and pack configurations. Designed for use with the dual-point release PASS straps, the harness system allows greater stability and a more controlled release. The harness de-rigs fast and easily stores in a cargo pocket.

- ▶ Adjustable cross strap enables a secure fit: from assault packs to the tallest RECCE pack
- ▶ Lightweight at 1.2 lbs
- ▶ Certified, rated, MIL-SPEC hardware
- ▶ Made in USA -Berry Amendment compliant
- ▶ NSN 8465-01-668-2878
- ▶ U.S. Patent: 10,953,993
